

A Naturalists Guide to the Birds of India

This easy-to-use identification guide to the 280 bird species most commonly seen in India is perfect for resident and visitor alike. High quality photographs from one of India's top nature photographers are accompanied by detailed species descriptions which include nomenclature, size, distribution, habits and habitat. The user-friendly introduction covers geography and climate, vegetation, opportunities for naturalists and the main sites for viewing the listed species. Also included is an all-important checklist of all of the birds of India encompassing, for each species, its common and scientific name as well as its vernacular name, its status in each state as well as its global IUCN status as at 2013.
