Growing up on the outskirts of Las Vegas as the daughter of notorious strip club owner, Stephen Knox, and a mother who abandoned her at birth, life was less than kind to a young Antoinette. After a failed teenage suicide attempt, Toni hit the road in search of a life free of undeserved cruelty and any resemblance to her past. Years later, Toni finds herself in a dead end marriage and makes a painful confession that sends her back to the one place she always wanted to escape. But can she really right the wrongs that haunt her? Toni soon finds that the only place where things stay the same is in your mind. When her path crosses with David Stark, childhood playmate turned one night stand, she cannot deny the spike in temperature she feels every time hes near or the scorching dreams that flood her at night. Digging through the years of heartache, Toni soon finds herself torn between the man she is committed to and the one who has always held her heart. As each layer unfolds before her, she discovers the root cause of her pain. Always believing the source was external, nothing could prepare her for the truth.
