

# Math at Their Own Pace: Child-Directed Activities for Developing Early Number Sense

As a dedicated early childhood teacher, you aim to provide an environment where students make new discoveries and test their limits. But when it comes to teaching developmentally appropriate math, you might welcome help from an expert with teaching experience based on the latest research on math learning. *Math at Their Own Pace* offers a series of predesigned, inexpensive activities that you can create and place on the shelf for children to use when they are developmentally ready and interested. This child-directed approach provides a broad range of hands-on math experiences that will help your students learn to solve problems creatively. *Math at Their Own Pace* covers: awareness of stable quantities and emergence of counting skills recognizing and writing the numerals 0 through 9 counting to 10 and beyond emergence of whole-part awareness Greg Nelson, PhD, is a professor of early childhood education at Bridgewater State College in Bridgewater, Massachusetts, and has been a lead teacher in a Montessori program. He holds a PhD in educational psychology, human development, and cognition.
