

Strong Signal (Cyberlove Book 1)

I was counting down the months until the end of my deployment. My days were spent working on military vehicles, and I spent my nights playing video games that would distract me until I could leave Staff Sergeant Garrett Reid behind. That was when I met him: Kai Bannon, a fellow gamer with a famous stream channel. I never expected to become fixated on someone who initially been a rival. And I never expected someone who oozed charm to notice me, a guy known for his brutal honesty and scowl. I hadn't planned for our online friendship to turn into something that kept me up at night hours of chatting evolving into filthy webcam sessions. But it did. And now I can't stop thinking about him. In my mind, our real life meeting is perfect. We kiss, we fall into bed, and it's love at first sight. Except, like most things in my life, it doesn't go as planned. *Strong Signal is a standalone, full-length novel with no cliffhanger*

It was unexpected to pick up a book and thought it was just a typical NA but eventually I got these hot dudes and something more than NA instead.
